

Deskman

The smart home robot

A friendly robot that talks, looks, thinks, moves, and calls.

Talks

Real-time conversation, powered by cloud and local models.

Looks

A camera sees your face so he keeps looking your way.

Thinks

Answers questions, knows stuff, and sets reminders.

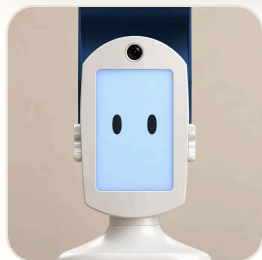

Moves

Turns and tilts his head, and lifts his hat to see and talk.

Calls

Makes video calls to browsers and to other Deskman devices.

INCLUDES

- 7" touchscreen
- 1080p camera
- 5,800mAh, 5 hour battery
- Speaker + mic
- Servos
- Wi-Fi
- 3D-printed body

STANDARD

Raspberry Pi edition

\$499

The everyday Deskman. Cloud-connected voice and video calls, ready to go. Pi 5, 2GB RAM + 32GB SD.

PRO

NVIDIA Jetson Orin Nano edition

\$999

More AI power for running more models on-device — for builders and researchers. 8GB RAM + 256GB SSD.
